Art Unit: 1614

Claims 1-24 are drawn to methods and composition for treating different pedicel conditions (see claims 9 and 17).

Each invention (specific medical condition) above is independent from the others since, for example, the treatment of bone and cartilage formation is completely different from the treatment of hair growth. Moreover, the literature search for the methods would be different as a reference for treating bone and cartilage would not be in the same reference book as for treating hair growth. The separate considerations are; therefore, not limited to patent files searching and would constitute a burden on the Examiner. Therefore, the restriction for examination purpose is ^{proper} ~~scope~~d.

Applicant is required to make a provisional election of a specific medical condition for examination the merits even though this requirement is traversed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jerome D. Goldberg whose telephone number is (703) 308-4606. The examiner can normally be reached on Monday through Thursday from 9 AM to 3 PM.
